
Wall Mounted Energy Recovery Ventilators

HOLTOP

Main Feature of Eco-Clean Wall Mounted Energy Recovery Ventilators:

 <p>Multiple HEPA purification of 99%</p>	 <p>Indoor&outdoor air filtration</p>	 <p>High efficiency heat and humidity recovery</p>	 <p>Silence Operation</p>
 <p>High efficiency fans with DC motors</p>	 <p>Remote control</p>	 <p>Air quality Index(AQI) monitoring</p>	 <p>Indoor slight positive pressure</p>

Multiple HEPA purification of 99%

Indoor&outdoor airfiltration

High efficiency heat and humidity recovery for optimized air comfort

Indoor slight positivepressure to keep the outdoor polluted air away

High efficiency fan with DC motors

Remote control

Air quality Index(AQI) monitoring

Silence Operation

Easy installation

Specifications of Eco-Clean Wall Mounted Energy Recovery Ventilators:

Model	ERVQ-B150-1A1F
Airflow (m3/h)	150
Filtration efficiency (%)	99% HEPA
Filtration mode	Pm2.5 purify / Deep purify / Ultra purify
Speed	DC / 8 speed
Input power (W)	35
Temperature efficiency (%)	82
Noise dB(A)	23 - 36
Control	Touch screen panel / Remote control
Air quality display	PM2.5 / Temp & R.H
Operational Mode	Manual / Auto / Timer
Suitable room size (m2)	20 - 45
Dimension (mm)	450*155*660
Weight (kg)	10

Suitable Room Size 82 m2
